ARTISTRY & CRAFTMANSHIP

ULTIMATE LUXURY & QUALITY

the-state-of-art
makeup artistry

KUM®, a German based manufacturer of cosmetic pencil sharpeners became a legend in the art of creating makeup tools as innovative as they feature the most cut-edge technology and high quality.

A century later, the legend lives on, strengthened by its global expansion, its state of the art new product launches and by its renowned excellence in services. The legend is now embodied by the launch of the most luxurious handmade cosmetic brushes.

KUM® Brushes epitomize true luxury and glamour: genuine craftsmanship, outstanding quality with remarkable performance.

KUM® offers a full range of standard and custom tailored brushes that are either made by pure natural hair or by synthetic hair that mimics the structure, tips and even the scales of the correspondent natural hair. KUM® brushes are uniquely hand sculpted keeping the natural tips of each „hair fiber intact";
For superior application „tips are not cut".

Besides cosmetic brushes, KUM® also offers an extended portfolio of dental, porcelain, glass, ceramic, artist and restoration brushes.
