About KUM®

KUM® was established in 1919. The company name stands for "Kunststoff und Metal" which is German for "plastic and metal", the material that most KUM® products are made of.

KUM® is a manufacturer of cosmetic sharpeners, pencil sharpeners, drawing instruments and other products for beauty, school, office and advertising.

KUM® tweezers is part of our business, KUM® tweezers focus on premium quality. We provide private label service.
